NOTE:

1. The above are general instructions only. Always follow the operating instructions of the machine you are using, as specific machines may require different/additional steps.
2. Soft Serve final volume will depend on amount of overrun (air). Recommended overrun 40-60%. Do not overmix.
3. *Recommended liquids can be used singly or combined to achieve desired texture.
When combining liquids, do not exceed total liquid volume.
4. For Bucket-based machines, fill bucket with cold liquids, then add dry mix. Stir with wire whisk or immersion blender until mix is fully dissolved, then pour into machine.
