**Product Sku:** AALC

#### Recommended use of the chemical and restrictions on use

**Recommended use** Flavors, industrial use.  
**Uses advised against** Do not ingest as such. Avoid eye contact.

### 2-DANGER IDENTIFICATION

Banana is a 100% natural product. It is a water solution of the volatile components of the aroma of freshly mashed Cavendish bananas which are ripened to full flavor. It is recovered during the processing of aseptic banana pure.

**Flash point:** Since the main constituent of Banana is water and water does not ignite, banana does not have a Flash Point, consequently it is not categorized as a Flammable Liquid and therefore is exempt from UN1197 labeling requirement.

**Boiling point:** 100 °C or 212 °F at 1 atmosphere of pressure (sea level).

### 3-FIRST AID MEASURES

**Skin contact:** Wash with water

**Eye Contact:** Wash with water

### 4-FIREPROOFING MEASURES

Fireproofing and blast preventing: No special demands  
Proper medium for putting out fires: Water  
Improper medium: None  
Special exposed danger: None

**5-DISPOSAL MEASURES WHEN LEAKING:** Wash with water
